

Public Notice  
Proposed Issuance of a Prevention of Significant Deterioration Construction Permit and  
Operating Permit to  
Archer Daniels Midland Co. in Decatur

Archer Daniels Midland Co. has applied to the Illinois Environmental Protection Agency (Illinois EPA) for a permit to install an oxidizer control system for three existing carbon furnaces at its facility located at 4666 Faries Parkway in Decatur. The three carbon furnaces are subject to the federal Prevention of Significant Deterioration (PSD) rules, 40 CFR 52.21. The oxidizer control system will reduce emissions from the three carbon furnaces. The Illinois EPA is accepting comments on the proposed permit.

After reviewing the materials submitted by ADM, Illinois EPA has determined that the operation of the carbon furnaces, as now proposed, would utilize Best Available Control Technology (BACT) for emissions of volatile organic compounds and carbon monoxide.

Persons wanting more information may obtain copies of the draft permit, and project summary at [www.epa.gov/region5/air/permits/ilonline.htm](http://www.epa.gov/region5/air/permits/ilonline.htm) (please look under All Permit Records, PSD, New). These documents and the application can also be obtained from the Illinois EPA's offices at 2125 South First Street in Champaign, 217/278-5800 and 1340 North Ninth St., Springfield, 217/782-7027 (for either location please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.

The Illinois EPA is accepting comments prior to making a final decision on this project. Comments must be postmarked by midnight November 13, 2002. If sufficient interest is expressed in the permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
